

Engine

Turbo diesel intercooler Deutz TCD 2013
L04 2V 173 H.P.

- water cooled 4 cylinders in-line engine
- option to Turbo diesel intercooler
Deutz TCD 2012 L06 2V 208 H.P.
water cooled 6 cylinders in-line engine .

Mixing

Overlapping 2 mixing augers with variable
hydrostatic Sauer pump and motor with 2
speeds mixing connecting axial to gearbox.

Chopper

Spiral facer with Variable hydrostatic
Sauer pump with Cut -Off - Pressure and
Reverse.

Driving

Front and Rear Drive axles - 4WD with
Sauer variable hydrostatic pump 2 speeds
up to 25Kph OR option to 40Kph .

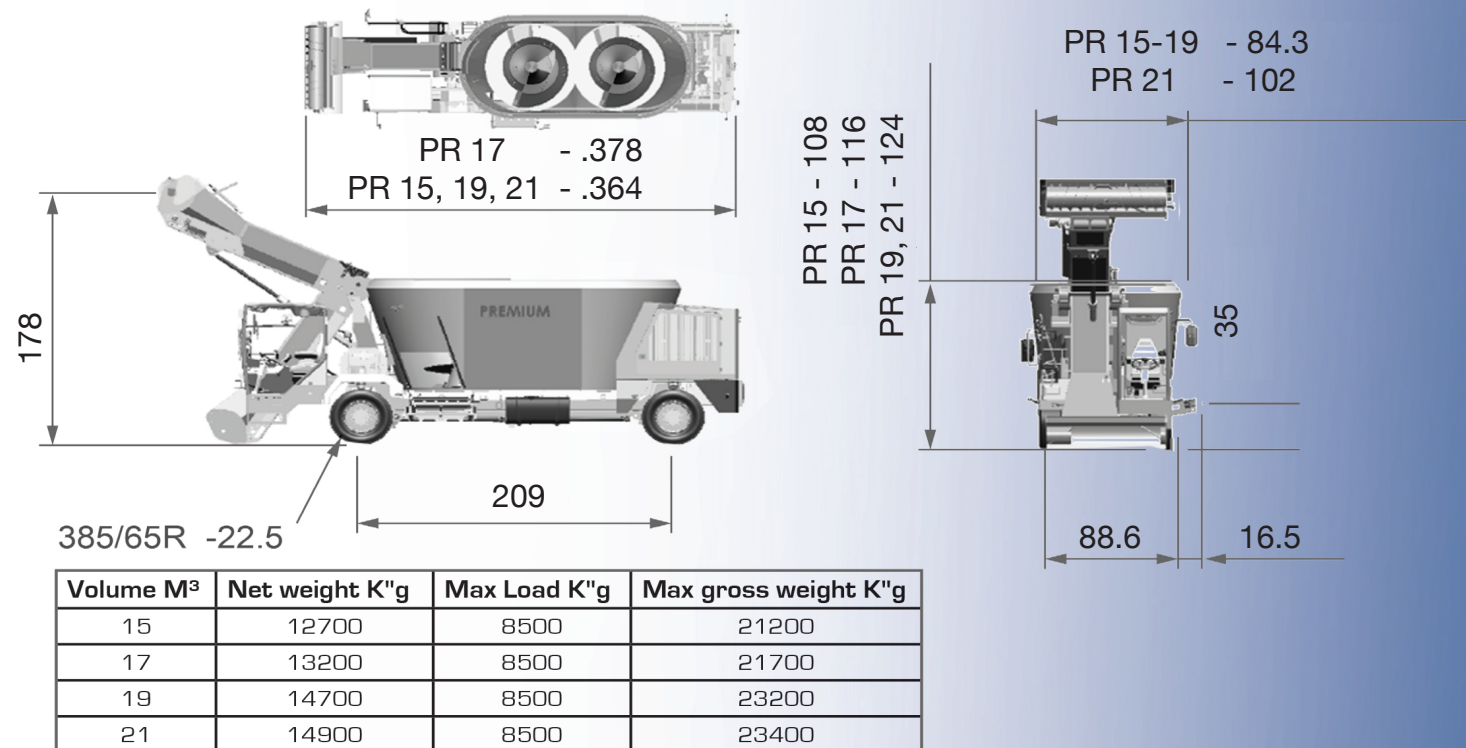

Steering

4 wheels steering in farm mode and 2
wheels steering in road mode.

RMH
LACHISH INDUSTRIES LTD.

Maneuverable & Narrow

Long Lasting

Rigid construction chassis with front & rear hydraulic suspensions.

Powerfull & reliable machine.

Four wheel steering, & FWD 4X4.

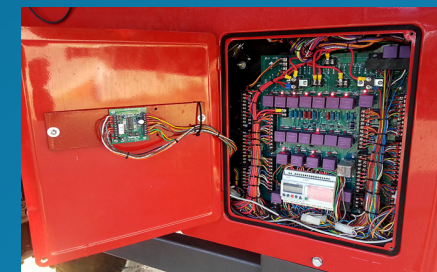

High maneuverability.

New ergonomics cab

Actimo seat XXL Grammer

Energy Consumption Management

Automatically power Priority divided by job mode.

Low cost maintenance.

Human engineering for the driver & for the technician.

Front loading elevator equipped with rubber belt 650mm width.

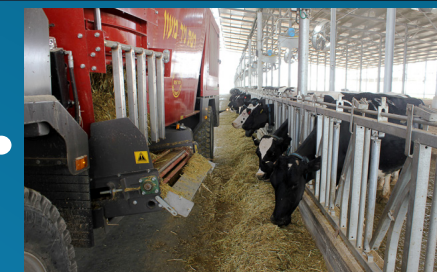

Efficient chopping preserving the nutritional value.

Front spiral chopper

housing made from 3CR12 Stainless steel.

Front Left Slider discharge conveyor.

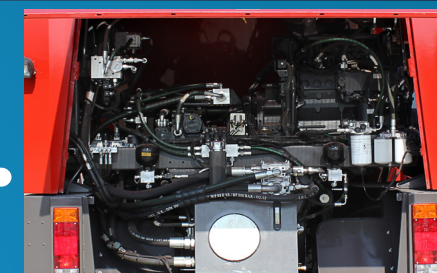

made from 3CR12 with C55 chain.

2 Heavy duty Planetary Gear box ,& two speed Sauer axial piston mixing motor.

Quick, efficient, precise & homogenous mixing - preserving the nutrition value.

Advanced Hydraulic System

User friendly & safe machine

Feed all herd groups with **One Machine**

The Premium is a mechanical self propelled mixer with 2 overlapping mixing augers designed mainly for narrow & low dairy farms with medium size farms.

30 Year innovation of self propelled
